Paul_Rogers posted on **Nov 16, 2018:**

Hello, I am a new member to this group and I joined because I believe that Learning Circles are becoming more and more important to adult education. I specialize in teaching ESL and, at best, less than 10% of the target population can be enrolled in ESL classes. At the same time, many adults in general simply cannot attend regular classes no matter what the subject. But they certainly can through learning circles [[keep reading ...](#)]

David_Rosen posted on **Nov 18, 2018:**

Smartphones are everywhere in the U.S. and in many other countries. They are used for communication, information searching, shopping and many, many other purposes; however, many smartphone owners don't know how to use them, or use them effectively, for advancing their personal or career learning. There is an important role for libraries and adult basic skills or non-formal education programs to help adult (and child) smartphone owners use them [[keep reading ...](#)]

Nico_Koenig posted on **Nov 23, 2018:**

Thanks for sharing this @Paul_Rogers Let us know if you end up testing learning circles with your network of English-language learners.
